

“The Indiana Chamber applauds the concept outlined in The Governor’s Plan for a Healthier Indiana because assistance in providing health insurance coverage for working Hoosiers is simply the right thing to do.”

“Businesses and employees who already have insurance would also benefit as a result of the program. When the number of uninsured is lowered, the amount of uncompensated care provided by Indiana hospitals and health facilities will also decline. In turn, this reduces the cost shift to employers and employees with private insurance.”

Kevin Brinegar
President
Indiana Chamber of Commerce
